

Helping to sustain quality of life at home

Who is DASSI?

Founded in 1984, DASSI (Disability Attendant Support Service Inc.) was established as a community-based, not-for-profit organisation to help those with disabilities.

Today DASSI assists thousands of Victorians in times of need, namely when they are recovering from an ailment or illness or if they are incapacitated, either temporarily or permanently.

We provide only the finest quality carers and attendant support workers as and when they are required – be it around the clock or for a couple of hours at a time.

Home care for the Aged
